

Thesis Presentation Outline

- **Presenter introducing himself**
- **Criteria for evaluation**
- **Project background** (3 slides)
- **Analysis I: Installation of evacuated-tube solar collector** (1 slides)
 - Problem identification (1 slides)
 - Background research (2 slides)
 - Proposed solution (3 slides)
- **Mechanical breadth: connecting ETC to the existing system** (3 slides)
- **Structural breadth: Checking validity of the existing roof frame** (3 slides)
- **Analysis II: Installing Aquatherm pipes** (1 slides)
 - Problem identification (1 slides)
 - Background research (2 slides)
 - Proposed solution (3 slides)
- **Analysis III: Recycling demolished materials** (1 slides)
 - Problem identification (1 slides)
 - Background research (2 slides)
 - Proposed solution (3 slides)
- **Research topic: First run studies** (1 slides)
 - Problem identification (1 slides)
 - Background research (3 slides)
 - Introduction
 - First run studies
 - Case study
 - Implementation guide (3 slides)
- **Conclusion** (1 slides)
- **Acknowledgements** (1 slides)
- **Questions** (1 slides)
